Reasons for allowance

The following is a statement of reasons for allowance:

Upon consideration, the inclusion of the claimed multi-beam scanning device, as claimed in the combination, is not found in the prior art. This difference is considered patentable over the prior art and reflects an improvement in the field of endeavor since the following apparatus claim limitations reflect an improvement in the field of endeavor and over the prior art of record.

With respect to claims 1-46, the primary reasons for allowance is the prior art does not teach the following claimed combination. While the prior art independently searched, as well as the prior art submitted on IDSs filed 5/21/2002, 6/11/2002, and 10/01/2003 teach a similar inventions, the references do not teach the combination of the light source unit and scanning optical system, as claimed.

Hence, the independent claims are deemed allowable over the art of record. The dependent claims depend from the allowed base claims and are also deemed to be allowed.
